## KOMPATIBILITÄTSLISTE

Synco Lube® Synthetisches Leichtlauföl

Synco Lube® Synthetic Lightweight Oil

| Polymer (Kunststoffe)                               | Bewertung |
|-----------------------------------------------------|-----------|
| Acrylonitrile Butadiene Styrene (ABS)               | E         |
| Cellulose acetate (CA)                              | E         |
| Polyamide (PA) (Nylon)                              | E         |
| Polycarbonate (PC)                                  | G         |
| Polyethylene (PE)                                   | E         |
| *ultra high molecular mass (PE-UHMW)                | E         |
| *low density (PE-LD)                                | E         |
| Polyethylene-/polybutylenetherephthalat (PET / PBT) | E         |
| Polyoxymethylene, Polyacetate (POM) (Delrin)        | E         |
| Polypropylene (PP)                                  | E         |
| Polyphenylene oxide (PPO)                           | E         |
| Polyphenylene sulphide (PPS)                        | E         |
| Polystyrene (PS)                                    | G         |
| Polytetrafluoroethylene (PTFE)                      | E         |
| Polyurethane (PUR)                                  | E         |
| Polyvinylchloride (PVC)                             | E         |
| Thermoplastic elastomer (TPE)                       | E         |
| Elastomere (Gummi / Kautschuk)                      | Bewertung |
| Acrylic rubber (ACM)                                | E         |
| Buna S                                              | NC        |
| Butyl (IIR)                                         | NC        |
| Polychloroprene rubber (CR)                         | G         |
| Chlorosulphonated PE-rubber (CSM)                   | E         |
| Ethylene-propylene-diene rubber (EPDM)              | NC        |
| Fluorinated rubber (FKM)                            | E         |
| Natural rubber (NR)                                 | NC        |
| Neoprene                                            | E         |
| Nitrile (NBR)                                       | E         |
| Polyurethane (AU, EU)                               | E         |
| Propylene-tetrafluoroethylene rubber (FPM, FEPM)    | E         |
| Styrene-butadiene rubber (SBR)                      | NC        |
| Silicone rubber (FMQ, PMQ, MQ, VMFQ, VMQ)           | G         |
| Viton (FKM)                                         | E         |
| <b>Bewertungsschlüssel</b>                          |           |
| E - Kompatibilität ausgezeichnet                    |           |
| G - Kompatibilität gut                              |           |
| NC - Nicht kompatibel                               |           |
