

SYNCO CHEMICAL CORPORATION

Certification Letter for Potential Contamination of Materials by the *Jatropha* Plant

August 2019

In July 2012, the FDA announced that oils, glycerin and proteins derived from the *Jatropha* plant that are commonly used in the production of human + animal food, medical products, cosmetics, and other FDA regulated products may contain toxins.

I confirm that Synco Chemical Corporation manufactures all Super Lube® and Synco Lube® branded products with respect to the following:

- a) I confirm that none of the materials used in the production of our products are contaminated with oil, glycerin or proteins derived from the *Jatropha* plant.
- b) Our supply chain security ensures that our raw material suppliers are not using materials contaminated with oils, glycerin, or proteins derived from the *Jatropha* plant.
- (a) Synco Chemical Corporation confirms that it has not supplied and will not in the future supply any ingredient/material/products contaminated with oils, glycerin or proteins contaminated by the *Jatropha* plant.

Kevin Wall

A handwritten signature in black ink that reads "Kevin Wall".
